

SOC/SIEM

CYBER SECURITY FOR ACCOUNTANCY PRACTICES, WHY DOES IT MATTER?

Cyber threats are evolving daily. Accountancy firms hold some of the most valuable and sensitive data, making them prime targets for cyber criminals. Could your current systems spot and stop a breach before it damages your reputation?

THE RISKS OF GOING WITHOUT CYBER SECURITY (SOC/SIEM)

Data Breaches

Client financial records exposed to hackers

Operational Downtime

Lost productivity and missed client deadlines

Regulatory Fines

Non-compliance with GDPR and industry standards

Reputational Damage

One breach can erode years of trust

THE BENEFITS OF SOC/SIEM WITH HDUK

24/7 Threat Monitoring

Always on vigilance for suspicious activity

Centralised Visibility

One view of your entire IT security landscape

Real Time Alerts

Rapid response to stop attacks in their tracks

Peace of Mind

Focus on clients and not cyber threats

WHY HDUK?

We understand the unique pressures on accountancy firms, everything from safeguarding client data to meeting strict compliance demands. Our SOC/SIEM solutions are built to keep you one step ahead of cyber criminals, without slowing your business.

A photograph of a man with a beard and curly hair, wearing a bright blue jacket, standing in the center of a large, out-of-focus crowd. The crowd consists of many people, mostly men, wearing dark clothing and hoods, creating a 'sea of people' effect. The man's blue jacket is the only bright color in the scene, making him stand out.

STAND OUT FROM THE CLOUD
